

# BI unit pulled out of Naia

By Brian C. Taylor

THE BUREAU OF INTELIGENCE has decided to withdraw its operations from the Naia airport terminal in San Francisco, according to a report by the San Francisco Chronicle.

The Chronicle reported that the FBI's National Security Agency (NSA) has decided to pull out of the Naia terminal, which is a major hub for international flights. The report said that the NSA has been operating out of the terminal since 2001, but that it has now decided to move its operations to a new facility in the city.

The report also said that the NSA has been operating out of the terminal since 2001, but that it has now decided to move its operations to a new facility in the city. The report said that the NSA has been operating out of the terminal since 2001, but that it has now decided to move its operations to a new facility in the city.

The report also said that the NSA has been operating out of the terminal since 2001, but that it has now decided to move its operations to a new facility in the city. The report said that the NSA has been operating out of the terminal since 2001, but that it has now decided to move its operations to a new facility in the city.

## Continued

# Mothers bare breasts, buck 'milk and murder'

PHILIPPINE

Mothers with children often breastfeed them. But in some parts of the Philippines, mothers are forced to breastfeed their children with milk from a can. This is because the milk from the can is cheaper than the milk from the mother.

Outargment

The milk from the can is cheaper than the milk from the mother. This is because the milk from the can is cheaper than the milk from the mother. This is because the milk from the can is cheaper than the milk from the mother.

Outargment

The milk from the can is cheaper than the milk from the mother. This is because the milk from the can is cheaper than the milk from the mother. This is because the milk from the can is cheaper than the milk from the mother.

Outargment

## RESPECT THE VOICE OF THE PEOPLE OF ILIGAN CITY AND LANAO DEL NORTE

On June 1, 2007, the Special Provincial Board of Canvasser (SPBOC) of Lanao del Norte announced canvassing the CoC's of Iligan City and the Municipalities of Bawi, Talbot, Matabugan, Linaoan, Kanderigan, Bacoed and Misaga all in the First District of Lanao del Norte. After the canvassing was finished, the votes garnered by all the congressional candidates are as follows:

Governor Ismael Q. Remapan	+	51,362
Congressor Vicente Belmonte, Jr.	+	51,588
Atty. Angelina Dawn B. Benares	+	49,498

With the canvassing of votes completed by the SPBOC, we, the justice loving and good hearted people of Iligan City and Lanao del Norte hereby ask the COMELEC to immediately proclaim the winning candidate by the said position to ease the brewing tension in Iligan City and Province. Any more delay in the proclamation of the winning candidate will only disenfranchise the people from having any faith in our electoral process.

Notwithstanding the clear and overwhelming mandate given to candidates, the losing candidate continues to file spurious motions blocking the proclamation of the winning candidate. These actions will only deprive the people of Iligan City and Lanao del Norte of a voice in Congress. At this early stage, important committee chairmanships and memberships are being snatched by political groups in Congress. The delay in the proclamation of the winning candidate will only deprive the elected representative of the First District of Lanao del Norte from being considered as Committee Chairman or member of these important committees.

They argue that there are discrepancies in the copy of the CoC's filed by the minority party and those canvassed by the SPBOC. These arguments are untenable to defer the proclamation of the winning candidate because such controversies are within the jurisdiction of the House of Representatives Electoral Tribunal. The HRET is the constitutional body created by law mandated to resolve such issues.

We, therefore, appeal to the COMELEC to immediately PROCLAIM the winning candidate of the First District of Lanao del Norte based on ALL the canvassed CoC's of the province. The people of Lanao del Norte has already spoken and given its mandate to its representative. It is now the duty of the COMELEC to respect the voice of the people.

Governor Ismael Q. Remapan can further strengthen the understanding and unity of Muslims and Christians. She can help strengthen the moral fiber of our society. She can give us peace and development. All Nations we have lived in Lanao del Norte over four thousand years as Christians.

From the:

Governor Elmerio of Iligan City and Lanao del Norte  
Bairagutiang Pahlilangpan of Lanao del Norte  
League of Municipal Mayors of Lanao del Norte  
Barangay Captains of Lanao del Norte  
Youth Leaders

DEPORTED 'lola' (left) and her family (right) are seen in a crowded setting, possibly a bus or train station, after being deported from Saudi Arabia.

## Deported 'lola' says her kids didn't want her to leave Saudi

By News Staff

After being deported from Saudi Arabia, a woman who had been living in the country for over 10 years said she was not happy to leave. She said her children did not want her to leave and she was sad to see them off at the airport.

The woman, who is in her 60s, said she had been living in Saudi Arabia for over 10 years. She said she had a good life there and was happy to be with her family. However, she was deported because of her status in the country.

She said she was sad to see her children off at the airport and that she was not happy to leave Saudi Arabia. She said she was not happy to see her children off at the airport and that she was not happy to leave Saudi Arabia.

# JDV allies ask GSIS head to resign

MANILA, July 14 (AP) — A coalition of 100 members of the Philippine House of Representatives on Monday called for the resignation of the head of the Government Service Insurance System (GSIS) after the agency's audit revealed a massive loss of funds.

The coalition, led by House Speaker Juan Ponce Enrile, said the GSIS had lost P1.2 billion in 1997, a figure that is "unprecedented in the history of the agency," it said.

The coalition also said the GSIS had lost P1.2 billion in 1997, a figure that is "unprecedented in the history of the agency," it said.

## FROM FUNDO TO FENRIBS PARK Metro water dirty, says St. Luke's test

MANILA, July 14 (AP) — A test conducted by St. Luke's Medical Center in Manila found that the water supply in Metro Manila is contaminated with lead and other heavy metals, a report released Monday.

The test, which was part of a larger study on the health effects of lead in drinking water, found that the water in Metro Manila contained levels of lead that were "significantly higher than the World Health Organization's recommended limit," the report said.

The report also found that the water in Metro Manila contained levels of other heavy metals, such as copper and iron, that were also "significantly higher than the recommended limit."

## beese get revenge

Figure 1 consists of four scatter plots arranged in a 2x2 grid. The top row shows the relationship between the number of children and the number of children not in school for the year 2000. The bottom row shows the relationship for the year 2005. The left column shows the relationship for the year 2000, and the right column shows the relationship for the year 2005. The x-axis for all plots is 'Number of children' and the y-axis is 'Number of children not in school'. The plots show a positive correlation between the number of children and the number of children not in school, with the correlation being stronger in 2005 than in 2000.

## Mayor's arrest kept secret

'Follow-up operations would have been compromised'

**Mayor's arrest kept secret**  
 'Follow-up operations would have been compromised'

The arrest of the Mayor of Singapore, Mr. Lee Kuan Yew, was kept secret for several days after it occurred. This was done to prevent the public from knowing the details of the case and to allow the police to conduct their investigations without any external pressure or interference.

The Mayor was arrested on charges of corruption and was held in custody for several days before being released. The police stated that the arrest was necessary to ensure the integrity of the legal system and to maintain public confidence in the government.

The Mayor's arrest was a major event in Singaporean history and it led to a series of reforms in the way the government was run. The police also stated that the arrest was a necessary step to ensure that the Mayor was held accountable for his actions.

# No 'jueteng' in south Metro, says police official

**By John R. Santos**

SPRINKLED WITH ITTER  
 of the police in the  
 Metro area, the police  
 official said that there  
 is no 'jueteng' in the  
 south Metro area. He  
 said that the police  
 are aware of the  
 situation and are  
 taking steps to  
 prevent it from  
 happening again.

## Mimallars: Gag order for media covering Rordan case

**Mimallars has charged**

**By Brandon L. Stone**

Mimallars has charged  
 the media with  
 covering the Rordan  
 case. He said that  
 the media is  
 creating a  
 false  
 narrative and  
 is  
 not  
 reporting  
 the  
 facts.

A person in a dark, possibly protective suit, stands in a misty or foggy environment, possibly a construction or demolition site.

**Trip Information**

The diagram illustrates the experimental setup for studying the effect of initial concentration on reaction rate. It features a reaction vessel equipped with a stirrer and a thermometer. The vessel contains a mixture of reactants. A catalyst is added to initiate the reaction. The rate of reaction is monitored by measuring the change in concentration of the reactants over time.

Meditation may  
order beats of  
Pacemaker deal

The diagram illustrates the experimental setup. A participant is seated at a table, looking at a video screen. On the screen, there is a starting point (a large circle) and a target (a small circle). The distance between them is labeled 'Distance'. The participant's hand is at the starting point and is labeled 'Hand'.

# Automakers, environmentalists clash over fuel consumption

**L**AWYERS representing automakers and environmentalists clashed over fuel consumption standards in a heated debate at the Department of Transportation (DOTr) last week.

The debate was part of a series of consultations held by the DOTr to gather input from various stakeholders on the proposed fuel consumption standards for new vehicles.

Automakers argued that the proposed standards were too stringent and would increase the cost of vehicles, making them less affordable for consumers. They also claimed that the standards were not based on realistic driving conditions.

Environmentalists, on the other hand, argued that the standards were necessary to reduce greenhouse gas emissions and improve air quality. They claimed that the standards were based on realistic driving conditions and would encourage automakers to develop more fuel-efficient vehicles.

The DOTr is currently reviewing the input from all stakeholders and will announce the final standards in the near future.

## The 24 hours of Le Mans

**ON THE ROAD**

The 24 hours of Le Mans is one of the most prestigious endurance races in the world. It is a test of both the driver and the car, as they must complete 24 hours of racing without stopping.

The race is held at the Circuit de la Sarthe in Le Mans, France. It is a 24.85-kilometer circuit that includes a mix of straights and corners.

The race is divided into three classes: LMP1, LMP2, and GT1. Each class has its own set of rules and regulations.

The race is a grueling test of endurance for the drivers. They must sleep in their cars during the race, and they must eat and drink while driving.

The race is also a test of the car's reliability. The cars must be able to run for 24 hours without any major problems.

The 24 hours of Le Mans is a unique and challenging race that has captured the hearts of racing fans around the world.

## Looking for a plan

**MY VIEW**

As we look ahead to the future, it is important to have a clear plan in place. This plan should outline our goals and the steps we need to take to achieve them.

One of the most important aspects of a plan is the ability to adapt to change. The world is constantly changing, and we must be able to adjust our plan as needed.

Another important aspect of a plan is the ability to measure progress. We need to know where we are and how far we have come in order to know where we need to go next.

Finally, a plan should be realistic. It should be based on what is actually possible, rather than on wishful thinking.

By having a clear plan in place, we can increase our chances of success and achieve our goals.

## Daring to face challenges

**See and please in Charles E. Nelson**

Charles E. Nelson is a man who is not afraid to face challenges. He has spent his life pursuing his dreams and achieving his goals.

Nelson is a successful businessman and a dedicated family man. He has built a successful career for himself and has a loving family to boot.

Nelson is a man of many talents. He is a skilled negotiator, a great leader, and a hard worker. He is also a man of integrity and honesty.

Nelson is a man who is always looking for the next challenge. He is not satisfied with the status quo and is always striving for improvement.

Nelson is a man who is truly daring to face challenges. He is a man who is not afraid to take risks and who is always willing to try something new.

Nelson is a man who is truly inspiring. He is a man who is always looking for the next challenge and who is always willing to try something new.

## Travel: Looking for

Travel is a great way to explore the world and experience new cultures. It is a way to broaden your horizons and learn about the world around you.

When you travel, you have the opportunity to see amazing sights, taste delicious food, and meet people from all over the world.

Travel is also a great way to relax and unwind. It is a chance to escape your daily routine and enjoy the beauty of the world.

So, if you are looking for a new adventure, travel is the way to go. It is a chance to see the world and experience it all.

## Crystallize it!

**The London-based Times**

**S**ome of the most important factors in the success of a business are the quality of its products and the quality of its customer service. The quality of a product is determined by the quality of the materials used in its production and the quality of the manufacturing process. The quality of customer service is determined by the quality of the staff and the quality of the service provided. Both of these factors are essential for the success of a business.
